

# MONEYLEAGUE Funky Awards

---

The fun stuff · May 2026 · 3 seasons of Sleeper data (2023-2025)

Forget the percentile composites. These are the awards we'd actually hand out at a league dinner.

## The Nuke — highest single-game score

**Kyle** detonated for **224.2 points** in 2023 Week 4. The league average that week was around 130. Felt good for about 6 days.

## The No-Show — lowest single-game score

**Josh** managed just **63.1** in 2024 Week 5. Probably a bye-week massacre or an entire starting lineup benched. Either way: woof.

## The Heartbreak — highest score that LOST

**Eric** dropped **179.4** points in 2023 Week 5 and still lost — Trevor put up 200.9. There is no justice in this league.

## Houdini — lowest score that WON

**Ankur** scored just **79.8** in 2023 Week 1 and somehow took the W — Coop scored only 79.2. A truly awful game between two truly cooked rosters.

## The Hammer — biggest blowout

**Kyle 195.0 - 92.9 Josh** in 2023 Week 13 — a **102.2-point** beatdown. Hope they at least sent a text apologizing.

### The Photo Finish — closest game

**Brower 118.12 - 118.06 Troy** in 2024 Week 1 — decided by **0.06** points. Decimal places matter in this league.

### The Heist — best draft pick of the era

**Ankur** took **Brandon Aubrey (K)** in **Round 13** of 2025 and got **+187 VBD** above what that round typically returns. That's a value pick of a lifetime.

### The Curse — worst draft pick of the era

**Tim** spent **Round 1** of 2023 on **Nick Chubb (RB)** and got **-223 below expectation**. Hurts to look at. We've all been there. Mostly.

### Late-Round Kicker Magic

**Lem** drafted **Cameron Dicker** in **Round 14** of 2025, returning **+169 VBD**. That's first-round-RB production from a pick everyone else used on a punter.

### Wire Wizard — best free-agent pickup

**Troy** plucked **Josh Allen** off the wire in 2023 Week 3, who then produced **+350 points** in the games after the add. Easily the best wire add of the Sleeper era.

---

### The Hot Potato — player who got passed around the most

**Odell Beckham (WR)** was added and dropped a combined **7 times** in 2023. Roster fodder of the year.

## **The Boomerang Award — keeps re-adding the same guys**

**Trevor** has re-added a player they previously dropped **31 different times** across the Sleeper era. There's a hypothesis being tested here, and the hypothesis is: nobody else wants this guy either.

---

## **Hyper-Manager — most wire activity**

**Trevor** made **192 adds** over 3 seasons. Reportedly has push notifications on for Sleeper, ESPN, NFL.com, RotoWire, and three different weather apps for Buffalo.

## **Couch Coach — least wire activity**

**Donnie** made just **29 adds** total. Set-it-and-forget-it energy. Honestly respect the discipline.

The serious version with percentiles and full tables is still available — this one's just for the group chat.
